Takata Front Passenger Air Bag Inflator Customer Outreach & Automatic Parts Shipment Update

Reference: R1302, R1407, P4236, PM358, PM458 & PM459
Date: April 8, 2015

Attention: Dealer Principal, Sales, Service & Parts Managers

******* Dealer Announcement *******

As previously announced on March 5th, 2015 Nissan has begun actively reaching out to customers via telephone, postcard mailers, and email in an effort to encourage customers to bring their vehicles into the dealer to have the Takata front passenger airbag recall campaigns repairs completed.

The purpose of this update is to remind dealers of rental coverage under these campaigns and to inform dealers of an automatic parts shipment for airbag inflators.

******* Parts Information/Availability *******

The parts distribution list included with this announcement should arrive at dealerships beginning, April 8th, 2015. The logic for the automatic shipment levels were designed to enable dealers to have 10% of stock needed based on claims completion rates to date. Current parts inventory was taken into consideration when automatic shipment quantities were determined for each dealer.

PART #	VEHICLE
98561-4Z60A	SENTRA
K8E61-7994D	MAXIMA
KH5FA-7993D	PATHFINDER

NOTE: Parts are not restricted and may be ordered freely through normal process as needed. Rental should be provided only when inflator parts are not in stock.
