SAFETY RECALL NOTICE

April 20, 2012

RE: New Safety Recall Notice – Dexter Recall Number 11E-057

Dear Circle W Trailer Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Dexter Axle Company has determined that a defect, which relates to motor vehicle safety, exists in certain Dexter Axle electric / hydraulic brake actuators. This defect involves premature wear of some of the critical components of the pumps in these actuators. This could cause the unit to become inoperable. Failure of this actuator can result in the loss of braking effort by the trailer.

The electric / hydraulic brake actuator on your trailer could possibly be in this recall. Please examine the actuator kit box to see if it is one of the recalled units. The serial number can be found on the E/H actuator label. The affected ranges are as follows:

K71-650-00 (E/H 1000 psi) serial # DTS 11903 to DTS 12759

If you have one of the defective units, please do not use your trailer until the unit has been replaced.

To correct this condition:

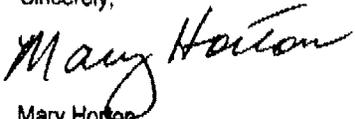

Contact: Dexter Axle
Phone: 800-400-2164
Hours: 8:00-5:00 EST

You may also contact Circle W Trailers at 334-374-2560 to obtain assistance. If you believe that Circle W Trailers has failed or is unable to remedy the defect without charge within a reasonable time, you may submit a claim to :

Administrator
National Highway Traffic Safety Administration
1200 New Jersey, SE
Washington, DC 20590
Or call: Vehicle Safety Hotline @ 888-327-4236 or TTY: 800-424-9153

We regret any inconvenience which this action may cause you. This program is being carried out to ensure your safety.

Sincerely,

A handwritten signature in cursive script that reads "Mary Horton".
