IMPORTANT SAFETY RECALL NOTICE

VOLUNTARY SAFETY RECALL CAMPAIGN # 12V-252

Dear UD Truck Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

UD Trucks North America has decided that certain 2008, 2009 & 2010 UD3300 model vehicles modified with dual steering by Fontaine Modification Company do not comply with the following requirement of Federal Motor Vehicle Safety Standard 121 "Air Brake Systems":

- Section 5.7, Emergency brake system for trucks and buses

The modifications made by Fontaine may have resulted in loss of isolation between the primary and secondary air brake systems; therefore, the vehicles may not comply with Section 5.7 of 49 CFR 571.12, Air Brake Systems.

As a result, if the vehicle experiences an air leak in either the primary or the secondary system, the vehicle may experience a total loss of brakes, increasing the risk of a vehicle crash.

The following safety recall has been issued by UD Trucks North America to address the issue:

Safety Recall 12V-252: Dual Steer Air Brake Plumbing Non Compliance

As a remedy the air brake system will be inspected and reworked if required to bring the vehicle into compliance.
