RE: SAFETY RECALL NOTICE

Actuator Brake Pressure Recall

Dear Tracker Marine Group Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Tracker Marine Group has decided that a defect which relates to motor vehicle safety exists in some Nitro and Tahoe trailers.

Our records indicate the brake actuator on your trailer may not completely release pressure on the braking system. This can result in brake components overheating, possible damage to the brake system, and/or loss of brake function on the trailer. Continued use without having this condition corrected may result in injury or death should the brake system fail to operate properly.

A Tracker Marine Group dealer will inspect the brake actuator to determine if it is affected by this recall and replace it as necessary. This repair process is free of charge and will take approximately 1 hour at your authorized dealer.

Contact your selling dealer or your nearest authorized Tracker Marine Group dealer to have your trailer repaired. You may locate your nearest authorized dealer on the internet at <http://trackerboats.com/> using the Dealer Search function or you may contact Tracker Marine Group Consumer Relations at 417-873-4555.

If you have already paid to have your trailer repaired for this condition, you may be eligible for reimbursement of the charges you paid for the repair. If you no longer own the trailer, please provide the new owner's contact information to us. To learn more about what you need to do to obtain reimbursement or providing new owner's information you may contact Tracker Marine Group Consumer Relations at 417-873-4555.

If after attempting to have your vehicle repaired you believe you have not been able to have your vehicle remedied without charge and within a reasonable amount of time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., S.E., Washington, D.C., 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience this safety recall may cause, but your safety is our first concern.

Sincerely,

Tricia Cusic
Advocacy Response Supervisor
