Mfr's Report Date: March 5, 2013

NHTSA Campaign Number: 13V-084

Components:

EQUIPMENT:OTHER:LABELS

Potential Number of Units Affected: 7

Problem Description:

Volvo is recalling certain model year 2013 S60 and XC60 vehicles, manufactured on January 7, 2013. The product identification labels were printed with the incorrect manufacture year. Thus, these vehicles fail to comply with the requirements of 49 CFR Part 567, "Certification Regulation."

Consequence:

With an incorrect date of manufacture on the certification label, the vehicle owner may not be to determine if they are affected by future vehicle recalls, increasing their risk of a crash of injury.

Remedy:

Volvo has quarantined the affected vehicles and will install correct labels prior to sale. The recall is expected to begin by March 8, 2013. Owner notification letters will not be sent.

Notes:

Owners may also contact the National Highway Traffic Safety Administration's vehicle safety hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

Please be reminded of the following requirements:

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
