To: All BMW Parts and Service Managers

Re: Status Battery Cable P/N 61 12 9 312 133

Below is the current status for the Battery Cables, part number 61 12 9 312 133.

Current Backorder	14,973
Current in Transit to US	32,737
Open Supplier Orders	57,598

All shipments to the US are via FedEx from Munich, inventory is being received daily.

**We cancelled all orders over 500 and modified all other orders over 100 to 100.**

**We are still experiencing excessive ordering for the cables**, while the quantities have reduced, there are now multiple orders (10 or more) of 100 pcs on the same day for several dealers.

Please ensure you are only ordering quantities as needed, the described ordering patterns are not only affecting your fellow dealers but the end customer as well.

The supplier is receiving pressure from us and BMW AG to clear all backlogs as soon as possible.

**The part are non-returnable.**

We will continue to provide you with updates every two or three days.

Thank you for your patience,

Amy McNamara  
Logistics Operations Manager
