To: All BMW Parts Managers

Re: Status Battery Cable P/N 9 312 133

Below is the current status for the Battery Cables, part number 9 312 133.

Current Backorder	19,069
Current in Transit to US	19,251
Open Supplier Orders	70,000

All shipments to the US are via FedEx from Munich, inventory is being received daily.

We are still experiencing excessive ordering for the cables, while the quantities have reduced, there are now multiple orders (10 or more) of 100 pcs on the same day for several dealers.

Please ensure you are only ordering quantities as needed, the described ordering patterns are not only affecting your fellow dealers but the end customer as well.

The supplier is receiving pressure from us and BMW AG to clear all backlogs as soon as possible.

As of May 2nd the part will be marked with a non-returnable indicator.

We will continue to provide you with updates every one to two days.

Thank you for your patience,

Amy McNamara
