Date: July 26, 2013**Reference Number: 13V-117****Return Receipt #****Re: Standard Duty Wrecker, Ford Super Duty Chassis equipped
with 6.2L Triton Gasoline engine.****Subject: Service Brake Hose Inspection**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REASON FOR THIS RECALL

According to Jerr-Dan records you purchased a Muncie Clutch Pump PTO, # 7577000692 as a service part or through Jerr-Dan's Direct Ship PTO program.

Jerr-Dan Corporation has decided that a defect may occur during the installation of a Muncie Clutch Pump PTO, which relates to motor vehicle safety. This could exist with the Standard Duty Wrecker mounted on a Ford Super Duty Chassis and equipped with the 6.2L Triton Gasoline engine concerning a brake hose routing. Jerr-Dan has determined that the brake hose between the ABS module and master cylinder can experience mechanical interference with other components. As a result of the interference, premature deterioration and/or loss of braking capability of the truck could result, increasing the risk of a crash and/or personal injury. This Recall must be completed on all affected units.
