These vehicles contain incorrect tire inflation pressures on the Vehicle Certification Label. Thus, these vehicles fail to comply with the requirements of the Code of Federal Regulations, Part 567, "Certification."

Consequence:

The incorrect tire pressure information given on the Federal Certification Tag and Tire Information Tag may lead to the tire being overinflated, resulting in sudden tire failure, increasing the risk of a crash.

Remedy:

Forest River will notify owners and will provide a corrected replacement label, free of charge. The recall is expected to begin in December 2013. Owners may contact Forest River at 1-574-534-3167.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Forest River's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
