RE: Sure Power Campaign 13E050

Dear Kelly:

I am writing to address a discrepancy with the first quarter 2014 Quarterly Report submitted by Sure Power April 30th, 2014.

In the early stages of our recall certain distributors provided Sure Power a list of their end use customers asking that we manage notification on their behalf. We provided interim notifications to all applicable customers on these lists in November and December of last year. However, due to an oversight with our documentation we failed to include these customers with the mailing of our final Part 577 notifications in the first quarter of 2014.

Upon realizing this error we took immediate action and completed a mailing of Part 577 notifications to all omitted customers Thursday May 8th.

Taking further steps to correct this error Sure Power is also updating documentation to NHTSA. With this correspondence we are providing an updated first quarter 2014 Quarterly Report to amend the date notification to purchasers was completed, now reflecting May 8th, 2014 with our completed mailing.

Please accept my sincerest apologies for this oversight. If you have any questions regarding this matter, or if Sure Power needs to take further action, please feel free to contact me at jess.bergers@eaton.com or 503-612-7535.

Best Regards,

Jess Bergers
