Potential Number of Units Affected: 215

Problem Description:

Jerr-Dan Corporation (Jerr-Dan) is recalling certain model year 2009-2014 Ford F-350 Super Duty, F-450 Super Duty, and F-550 Superduty chassis modified by Jerr-Dan and equipped with certain Muncie Power Products PTO Assemblies. In the affected vehicles, oil may leak from the PTO pressure switch onto a thermal blanket covering the exhaust.

Consequence:

The leaking oil may soak into the thermal blanket covering the exhaust, which when combined with heat from exhaust, may result in an increased risk of fire.

Remedy:

Jerr-Dan will notify owners, and dealers will install a new pressure switch kit that moves away from the exhaust system, free of charge. The recall is expected to begin in September 2014. Owners may contact Jerr-Dan customer service at 1-800-926-9666.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
