IMPORTANT SAFETY RECALL

NHTSA Recall Campaign # 15V-429

Dear Valued Entegra Dealer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Entegra Coach has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2015 and 2016 Cornerstone Class A motor homes manufactured March 6, 2014 through August 18, 2015.

The affected vehicles were manufactured on a Spartan Chassis with inadequate clearance between the jack plates and tag axle brake lines. The jack plate may catch the line when retracted and while pinned against the coach, the movement of the coach could wear through the air line. This may cause an air leak to occur when the brake pedal is being pressed, reducing the braking performance and may lengthen the distance needed to stop the motor home, increasing the risk of a crash.

The remedy is for a Spartan Chassis Service Center to replace the 45 degree fitting on each airline with a 90 degree fitting to redirect the line out of the way of the jack plate. The recall remedy will take approximately one hour and will be performed at no charge to the current owner. If the brake lines show any sign of wear, they will be replaced at no charge.

Our records show the following Cornerstones are affected by this recall and are currently in your inventory and require the recall repair:
