Re: Safety Recall No. 08E-032 Dometic Corporation

Mr. Willard,

Pursuant to our phone conversation 7-25-08, please be advised that KZRV, LP has searched our product records and found that the Dometic refrigerators purchased by KZ affected by this recall were not used in production for our product. The refrigerators were, in fact, sold through our parts department. Our product specifications for product were all Norcold products.

I apologize for the delay in responding to this inquiry. The file shows that after receipt of the July 2nd letter (received July 7th), two inquiries were sent by our attorney, Tim Cain, to Dometic Corporation which have gone unanswered as of today's date.

If you require further from KZ, please do not hesitate to contact me. (800)768-4016 Ext. 110 Thank You.

Sincerely,

A handwritten signature in black ink, appearing to read 'Delbert Miller', written over a horizontal line.

Delbert Miller/V.P. Corporate KZRV, LP
