Williamson, NY 14589
Attn: Ray

Dear Ray:

Thank you for sending us the information on the Westlake tires you have in stock that you believe may be part of the ongoing recall. Our records indicate that these LT265/75R-16 CR861 tires with DOT code 7DT4FTS3705, which you indicated you purchased from Reliable, could not have come from us. The last time we shipped this tire to a Reliable location in New York, New Jersey or Connecticut was in February of 2005, and based on the date code of 3705, these tires were produced well after that time, in September of that year.

Please go back to your supplier for instructions on how to handle these tires.

Very Truly,

Richard Kuskin
