Subject: RE: EQ08-010 Recall of dometic fridges
Wes,

I apologize. I got your voicemail Friday but needed to leave for the day before I could return your call. The below response is fine. If you did not build them into any of your camps, nothing further is needed.

Please give Stericycle/Dometic the customer information should they have one of the affected units.

Thanks,

Alex Ansley

Subject: EQ08-010 Recall of dometic fridges

Dear Alex,

Concerning the Dometic recall #EQ08-010. According to our records none of the fridges were installed into any of our sheep camps. We use a different model that is smaller and fits into our cabinets. I contacted Dometic just to make sure and after receiving a report of our purchases found out that one of the recalled model numbers was purchased by my uncle when he was still part of our company. The fridge was not installed into one of our sheep camps it was purchased for a friend. We are contacting the individual right now to check on the serial number of the fridge to determine if it is one of the fridges affected. If it is what furthurs step do I need to take in order to stay in compliance? I appreciate all your help. Please either respond to this e-mail or call me on my cell at 435-962-2595. Thank you for your time.

Wes Wilson
