Dear Alex,

I responding to your letter that you sent to our company in regards to a recall on 2 door Dometic refrigerators. Casita Enterprises, Inc. has not and does not install 2 door refrigerators in the trailers that we build.

Sincerely,

A handwritten signature in black ink that reads "Susan Emmett". The signature is written in a cursive, flowing style.

Ms. Emmett,

We've mailed you these letters as your company was on a Dometic ship-to list as having received one or more of the 2-door recalled refrigerators. Please check your invoices to make sure you did not receive/install any of these models. I've included the recall documentation that lists models/serials.

Also, if it turns out your company did not receive any of these, please issue us a statement (by fax/email) that effect. If your company did install any of the recalled refrigerators into new motor vehicles, we would need a 573 Defect Report filled out and returned. I've included one of these for your reference.

Please let me know if you have any questions.

Thanks,

Alex Ansley

Jamie & Nick,

Casiata has only purchased single door refrigerators not affected by the recall.

Susan Emmell at Casita needs something to that effect on our letterhead ASAP - please.

THE only reason I can think they could be on the DOT list is we may have sent 1 prototype refrigerator for a larger model they have never built.

Please let me know when you send this letter to Susan.

Thanks,

John
