Mr. Daniel C. Smith
Associate Administrator for Enforcement
National Highway Traffic Safety Administration
1200 New Jersey Ave, SE
Washington, DC 20590

Dear Mr. Smith:

This letter is written to notify the NHTSA that Fleetwood Enterprises, Inc., is aware of the voluntary initiation of a recall notification campaign affecting Fleetwood produced recreational vehicles as listed below:

Class A Motor Homes - Model Year 2006-2007

Fiesta manufactured 9/1/05 through 7/23/07
Terra manufactured 8/25/05 through 3/20/07

This voluntary recall campaign is being conducted by:

Workhorse Custom Chassis
922 S. State Route 32
Union City, Indiana 47390

Telephone: (877) 294-6773

This voluntary recall campaign involves approximately 251 Fleetwood Class A motor homes manufactured with Workhorse chassis.

Fleetwood estimates that 100% of the above motor homes contain the safety defect. This is based on the Part 573 defect report that Workhorse Custom Chassis provided to Fleetwood on October 8, 2008 and also submitted to the National Highway Traffic Safety Administration on August 27, 2008.

The reason for the recall is that on some chassis, the castle nut that retains the steering drag link to the pitman arm may have been improperly torqued during assembly. The improper torque may have damaged the castle nut and compromised the integrity of the connection.

If the drag link were to separate from the pitman arm, the driver would not have directional control of the vehicle possibly causing a crash and potentially resulting in property damage, personal injury, or death.

Fleetwood has no reason to disagree with this action or the recall remedy. Fleetwood is relying on Workhorse Custom Chassis and the NHTSA to monitor campaign performance.

Sincerely,

A handwritten signature in cursive script that reads "Chuck James".

Chuck James
