Alexander,

We did not purchase any model #'s that fall under the new recall.  
The only model # purchased from Dometic in this time frame were RM2663. These were reported under the previous recall.

Thanks,

Susan Chabert

Ms. Chabert,

Those notifications would have been applicable for the older recall,  
Dometic #06E-076. The new recall, which is an expansion of the old  
recall, was not filed with NHTSA until April 11th, 2008.

Your company was on Dometic's customer list as having received some of  
the newer recalled units. Did Sportsmoible receive any additional units  
from Dometic that would fall under this recall?

Thanks,

Alex Ansley

Mr. Person,

In regards to your most recently letter stamped dated September 30, 2008.

Please correct us if we are wrong but We have already responded to this recall in April 2008.

Please see attached for certified letter receipts that were sent to you and to our customers.

If there is any further information that you are needing, please do not hesitate to contact us.

Respectfully,

Susan Chabert  
Office Manager
