Sorry this took so long, but we had to get a list from Workhorse and then pull the information from our records. But we have it now.

Total of 1594 Tiffin units involved.

386 2003 Allegro  
592 2004 Allegro  
42 2005 Allegro  
  
144 2003 Allegro Bay  
344 2004 Allegro Bay  
86 2005 Allegro Bay

If any additional information is needed please contact me via e-mail or via phone at 256-356-0205.

Thank you,

Liz Jones

Liz, that is all well and good. Like in the past we have requested information from you and other manufacturers along this same line. What I need from you (Tiffin) is your make, model, and model year (s) and of course how many of these components your company received. What you do with Workhorse is really no concern to me. All I ask, is that you response to our request.

Hello,

I spoke with Winston Moore ([w.moore@workhorse.com](mailto:w.moore@workhorse.com)) who is the Product Service Manager at Workhorse. He advised me to report to you that Workhorse is handling the campaign, notifying the customers, and notifying NHTSA of the completed repairs. I told Mr. Moore that if they needed any customer of dealer information from Tiffin, we would be glad to assist.

Thank you,

4/21/2006
