Office of Defects Investigation
Recall Management Division
Attention: Alex Ansley

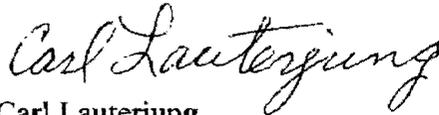

Reference: EQ08-015

Dear Mr. Ansley,

Our company does not manufacture new recreational vehicles nor do we install the referenced glass shower doors in new RV's for our dealers. We buy several products from Irvine Shade and Door but have only purchased one glass shower door and that was direct shipped to a customer in another state for installation in his personal RV.

We, therefore, do not have any experience with the problem being investigated nor do we feel that we have any responsibility regarding this matter.

Respectfully submitted,

Carl Lauterjung
President
