Subject: Recall
Alex,

I received a letter today from NHTSA on the following recall numbers: NVS-215aa
EQ08-015
07V-411
08V-639

I have read through the letter and we have checked our records and we do not show that we have ever bought any shower doors from Irvine Shade in the history of our company let alone for the described period of time in this recall. We only bought shades for windows from Irvine.

I am not sure exactly what kind of response you need from me on this matter. Do I need to do a letter to you stating the fact that we have not bought any shower doors from Irvine during the described time? Please let me know how you would like me to officially respond to this letter. Is it possible to make this very email my official response to you?

I look forward to your response.

Best Regards,

Troy Stone
