Rosa,
Could you please place the email below into the file for DP09005, Center for Auto Safety petition on the Jeep Grand Cherokee?
Thank you,
Larry

Subject: EWR Jeep Grand Cherokee Fuel System/Fire Records

There are 23 fire (or fuel system) related death and injury claims from the EWR data itself involving 1993 – 2004 Jeep Grand Cherokees. We can't find ANY claims in the present index of DI investigations that are associated with claims including fires in MY 1993-2004 Jeep Grand Cherokees.

The Center requests that NHTSA contact Chrysler & require production of records for every death and injury incident related to fire or fuel system in EWR for 1993-2004 Jeep Grand Cherokees. Please put this request in the record of our Defect Petition on fuel system fires in these Jeeps, DP09-005. While we presume the agency would be making an EWR inquiry as part of its investigation, the present public does not show such an inquiry as shown in the print screen record attached to this email.

Thank you.

Clarence Ditlow
