Dear (Name):

This letter is to inform you that the warranty period on certain 2007 – 2008 model year Jeep Wrangler vehicles has been extended to include lifetime coverage to repair a certain condition that may occur during refueling of the vehicle. Our records show that you either own or lease one of the vehicles affected by this extended lifetime warranty.

We are extending the warranty period because some of the affected vehicle population may experience fuel spilling out of the filler port during refueling, typically after the fuel fill station nozzle has automatically shut off. If you are experiencing this condition now or in the future, simply contact your dealer to have the repairs performed. Conversely, if you do not experience this condition, then your fuel fill system is operating correctly and no repair is necessary.

If you have already experienced this fuel spill condition and previously paid for a repair, you may be eligible to receive a reimbursement. You may complete the enclosed Customer Reimbursement Claim Form and send your original receipts, invoices and/or repair order to the following address for reimbursement. Your claim will be acted upon within 60 days of receipt:

Chrysler Customer Assistance Center
P.O. Box 21-8007
Auburn Hills, MI 48321-8007

If you have questions or need any assistance, please contact your dealer or the Chrysler Customer Assistance Center between the hours of 8:00 AM and 8:00 PM, EST, Monday through Friday or Saturday 9:00 AM to 5:00 PM, EST. They can be reached at 1-877-426-5337.

Please keep this letter in your glove box along with your vehicle's other warranty information for future reference if necessary. This warranty extension applies only to the inlet check valve/fuel spit back condition described above; the other terms of your warranty remain the same.

Chrysler is taking this action to demonstrate its commitment to your continued satisfaction.
