John,

Your request for an extension for responding to the remainder of the requested information is granted. The due date for providing the additional information is now August 31, 2011.

Regards,
Jeff Quandt

Subject: PE11-020 2007-2008 Altima Master Cylinder

Jeff,

Per my phone message on August 12th, Nissan is requesting an extension for submission of remaining information until August 31, 2011. This extension request was necessary since we very recently determined we needed additional information from Nissan Japan and they are closed for summer shut down until next week. We have already mailed the partial submission by the original August 12, 2011 due date.

Please confirm if this is acceptable to the agency.

Regards,

John Gibbons
