573.6 Defect Information Report

573.6,c,1.
Vehicle manufacturer's full name:
Polaris Industries Inc., Victory Motorcycle Division
Address:
2100 Highway 55
Hamel, MN 55340-9800

573.6,c,2.
Vehicles potentially containing defect:
MY 1999 V92C Standard Cruiser
MY 2000 V92C Standard Cruiser
MY 2000 V92SC SportCruiser
MY 2000 V92C Standard Cruiser, Special Edition
MY 2001 V92C Standard Cruiser
MY 2001 V92SC SportCruiser
MY 2001 V92DC Deluxe Cruiser

RECEIVED
SEP 12 2003 8:59
DEFECTS INVESTIGATION
OFFICE OF

Vehicle Identification Numbers:
Complete list of affected VINs attached.

Inclusive dates of manufacture:
All motorcycles assembled from 7-1-98 through 7-25-01.

POLARIS Victory Motorcycles A Division of Polaris Industries

Basis for recall population:
All motorcycles built from 1999 through 2001 model years use a similar sidestand assembly and frame rail. Later models have higher ground clearance and different frame rails that afford greater protection against damage to the sidestand assembly.

573.6.c.3.
Total number of vehicles being recalled:
9,120

573.6.c.4.
Percentage of vehicles estimated to actually contain defect:
All vehicles have a similar design, but potential for unintended sidestand deployment is strongly affected by the handling and operation of the motorcycle.

573.6.c.5.
Brief Summary:
In certain instances the sidestand spring and /or the pin used to attach the spring to the frame may be damaged, allowing unintended deployment of the sidestand.

Detailed description:
The sidestand used on Victory motorcycles is attached to the lower left side frame rail and utilizes an extension spring to retract and hold the sidestand against the frame rail while the vehicle is in motion. The spring is attached at one end through a hole in the sidestand and at the other end to a pin which is welded in a vertical position to the lower frame rail. During aggressive operation, it is possible for the spring to come in contact with the road, grinding a portion of the spring material away and leaving it in a weakened condition in which it may break unexpectedly. The pin used to attach the spring to the frame rail may also be damaged due to aggressive operation or when the motorcycle is moved onto or off of an incline (e.g., bent while loading the vehicle onto a trailer). Such damage to the pin may reduce the spring tension while the sidestand is in an upright position and allow the spring to fall from the assembly. Damage to the spring or pin may ultimately result in unintended deployment of the sidestand.

573.6.c.6.
Chronology:
Victory has recently conducted a thorough review of customer complaints and warranty records pertaining to this issue as a result of NHTSA Preliminary Evaluation 03-022. Although the sidestand is designed to retract if it deploys while the vehicle is in motion, this review persuaded Victory that the condition may still have some potential to cause an accident.

573.6. c.8.
Remedy program:
Victory will inspect all affected vehicles and replace the sidestand spring and frame rail bracket with newly designed components when available. Victory will also reimburse claimants who can provide documentation that they have paid for repairs due to this

condition, unless those repairs would have been covered under warranty. Additional details of the reimbursement plan will be provided with the proposed owner letter.

Estimated date on which notifications to Owners will begin:
Not yet determined.

Estimated date on which notification will be completed:
Not yet determined.

573.6.c.10.
Owner letter:
A proposed owner notification letter will be provided as soon as it is available.

573.6.c.11.
