

MOTOR VEHICLE RECALL

Dear Hyundai Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Hyundai has decided that certain 2002 and 2003 model year Elantra, Sonata, Tiburon, and XG 350 vehicles, produced beginning October 1, 2001 through November 9, 2002, fail to conform to the requirements of Federal Motor Vehicle Safety Standard 301, Fuel System Integrity.

What is the problem?

- **A valve on the fuel tank assembly may not close properly. If a vehicle rolls over and the fuel tank assembly valve is not properly closed, fuel spillage may occur. Fuel spillage in the presence of an ignition source may result in a fire.**

What will Hyundai do?

- **To ensure that your vehicle's fuel tank assembly valve will operate properly, we are asking you to schedule an appointment as soon as possible to take your vehicle to your Hyundai dealer. The Hyundai dealer will install an additional fuel tank assembly valve. This procedure will be performed at no charge to you. You should plan to leave your vehicle at your Hyundai dealer to have this service performed. Repair times will vary and depend on your dealer's appointment schedule.**

What should you do?

- **We urge you to call your Hyundai dealer to schedule an appointment to have this work performed as soon as possible.**

What if you have other questions?

- **If you have any difficulty having this repair performed, we recommend that you call the Hyundai Customer Assistance Center at 1-800-633-5151. If you are still not satisfied that we have remedied this situation without charge, and within a reasonable amount of time, you may wish to write to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S. W., Washington, D.C. 20590 or call their toll-free Auto Safety Hotline at 1-888-327-4236.**

We urge your prompt attention to this important safety matter.
