00V-349.001 ①

Dear Sir or Madam:

In accordance with 49 USC 30118 and 49 CFR Part 573, this is a report under 49 CFR 573.5 informing you that Qvale Automotive Group Srl ("QAG") has determined that a defect may exist in some vehicles manufactured by QAG and sold in the United States.

Pursuant to 49 CFR 573.5(c), provides the following information (per 49 CFR 573.5(b), new and/or updated information will be submitted as it is available):

1. **Manufacturer's name:** Qvale Automotive Group Srl (factory: Modena, Italy) subsidiary of Qvale Automotive Group Ltd.
Agent under 49 USC 30164: Don Endo, 901 Van Ness Ave. San Francisco, California

2. **Identification of vehicles containing the noncompliance:** MY 2000 and 2001 QAG Mangusta vehicles with VIN numbers: **SEE ATTACHMENT A**
 Note: This is the list of affected VINS as of The date of the letter. Since QAG has not yet received the fix kit from Ford, the supplier, the list of affected VINS will change.

Description of basis of determination of recall population: QAG sources its handbrake mechanism from Ford Motor Company. QAG has learned that the Ford Mustang handbrake has a noncompliance/defect as set forth in Ford's recall NHTSA ID #00V349000

Qvale Automotive Group, Ltd.
901 Van Ness Avenue
San Francisco, California, USA 94109
Tel: (800) 390-9606
Fax: (415) 771-1164
www.qvaleusa.com

00V-349.001 ②

(see attached). Some QAG Mangusta vehicles may have been built with the Ford part that is the subject of the aforementioned Ford recall. Based on this information, QAG determined that the attached US VIN numbers could be affected.

3. **Total number of US vehicles containing the noncompliance: 157 vehicles**
4. **The percentage of vehicles specified in #2 above estimated to contain the noncompliance: 100%**
5. **Description of the noncompliance:** As a result of the situation described above, the handbrake may not function properly, which could result in unintended vehicle movement and a vehicle crash without warning.
6. **Data on which determination of noncompliance was made:** Learning of Ford recall and fact that Ford is QAG handbrake mechanism supplier.
7. N/A
8. **Description of program for remedying the noncompliance:** As of the date of this letter, of the affected cars, only 20 have been sold at retail. 137 are either at QAG's facility or in dealer hands. When QAG obtains the necessary fix "kits" from Ford, QAG will effectuate its recall. Dealers are being notified (see attached) and will be provided free-of-charge with the necessary kits. QAG will contact the 20 owners affected to conduct the recall free-of-charge. QAG's recall will follow as closely as possible timewise the subject Ford recall.

Estimated date on which QAG will begin sending notifications to owners: Owners letters will be mailed by 12/22/2000; Dealers will be sent the attached Bulletin on or before 12/22/2000.

Estimated date on which QAG will complete such notification: 1/15/01

DRAFT 49 CFR PART 577 OWNER NOTIFICATION LETTER

Mr. John Doe
123 Elm Street
Any town, State XXXXX

Dear QAG Mangusta Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. QAG has decided that a defect that relates to motor vehicle safety exists in MY 2000 and 2001 QAG Mangusta vehicles built between November 1999 and December 2000.

The defect consists of the following: the handbrake mechanism may not function properly so that if the vehicle is parked with the parking brake not fully applied and not in first gear, as directed in the Owners Guide, and the self adjustment pawl subsequently skips one or two teeth, the vehicle could move on some grades.

The defect could result in unintended vehicle movement and a vehicle crash without warning. It is thus important to call QAG immediately in order to arrange an appointment.

QAG is taking the following measures to remedy the defect:

- QAG is remedying the defect without charge.
- The defect is being remedied by you bringing your car to QAG or its dealer to have the vehicle inspected and if necessary, the handbrake mechanism modified at no charge.
- Call your QAG dealer or QAG at the number set forth below in order to make an appointment. Approximately 2 hour(s) will be needed to do the work.

Please note that you may submit a complaint to the Administrator of the National Highway Traffic Safety Administration, 400 Seventh St. SW Washington DC 20590, or you may call toll free Auto Safety Hotline at 800 424 9393 (Washington DC area residents may call 202 366 0123), if you believe that:

- QAG or your dealer has failed to or is unable to remedy the defect without charge
- QAG or your dealer has failed to or is unable to remedy the defect without charge within a reasonable time, which is not longer than 60 days after you tender the vehicle to the dealer.

If you have any questions, please contact the undersigned.

Sincerely,
Todd Stefani

DRAFT DEALER NOTICE

Dear QAG Dealer:

RECALL NOTICE

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. QAG Cars Ltd. has decided that certain MY 2000 and 2001 QAG Mangusta vehicles may have a safety defect in that the handbrake mechanism does not function properly so that if the vehicle is parked with the parking brake not fully applied and not in first gear, as directed in the Owners Guide, and the self adjustment pawl subsequently skips one or two teeth, the vehicle could move on some grades.

QAG sources its handbrake mechanism from Ford and is awaiting the necessary "kit" and instructions in order to effect the necessary repairs. As soon as Ford makes this material available to QAG, QAG will send out a service bulletin providing instructions on the work to be performed. Dealers should file a warranty claim for all work done in conjunction with this recall, and shall be permitted no more than 2 hour(s) per car.

QAG is taking the following measures to remedy the noncompliance:

- QAG is remedying the noncompliance/defect without charge.
- The noncompliance/defect is being remedied by providing affected owners with inspection, and if necessary, modification of the handbrake mechanism, to be done by QAG or its dealers. Owners will be notified on or about 12/22/2000.
- Owners have been instructed to call for an appointment and that approximately 2 hour(s) will be needed to inspect and if necessary, replace.

WITH REGARD TO VEHICLES IN YOUR INVENTORY, according to QAG's records, you have the vehicles on the attached list that are affected by this recall. Please inspect these cars immediately and perform the work set forth in the forthcoming service bulletin.

If you have any questions, please contact me.

Sincerely,

Todd Stefan

RE: RECALL CAMPAIGN NUMBER 00V-349.001

Dear Sir or Madam:

This letter amends Qvale Automotive Group Srl's ("QAG") notification letter dated 11/27/00 regarding a parking brake defect exists in some vehicles manufactured by QAG and sold in the United States.

QAG has learned that the parking brake cable used in the population of vehicles affected by recall # 00V-349.001 is not strong enough and could be subject to breakage. QAG intends to replace these cables at the same time that it conducts the original parking recall as described in its notification to NHTSA dated 11/27/00.

QAG intends to include this cable fix in the recall 00V-349.001 because both the original slippage problem and the newly-found cable problem are parking brake-related, and QAG believes that including both in a single recall will avoid customer confusion.

QAG thus intends to combine the cable fix with the original fix as follows:

- a. As regards the 128 vehicles in the possession of QAG, its dealers, and customers who have not yet had the original fix done, by sending to owners the letter attached as Attachment A and to dealers the bulletin attached as Attachment B.
- b. As regards the 14 vehicles in the possession of retail owners that have had the original parking brake fix done (as of this date), by sending a second letter (Attachment C) explaining the need to bring the car back a second time (and QAG will also call these 14 owners on the telephone to confirm this).
- c. As regards the 24 cars that have had the original parking brake problem fixed at the factory (for 22 of which are still in QAG or dealer hands: the Attachment B bulletin will be sent; for the 2 vehicles in an

Fax: (415) 771-1164
www.qvaleauto.com

owners hands, the Attachment D letter will be sent together with a follow-up phone call.)

Unless we hear from NHSTA by June 29th, 2001 that our intention to combine the two parking brake fixes is unacceptable, we will assume it is OK to proceed in this manner.

As regards the additional parking brake problem:

1. **Manufacturer's name:** Qvale Automotive Group Srl (factory: Modena, Italy) subsidiary of Qvale Automotive Group Ltd.
Agent under 49 USC 30164: Don Endo, 901 Van Ness Ave. San Francisco, California
2. **Identification of vehicles containing the noncompliance:** MY 2000 and 2001 QAG Mangusta vehicles with VIN numbers: **SEE ATTACHMENT E**

Description of basis of determination of

recall population: QAG sources its handbrake cable from Cofle Srl. QAG has learned that the Cofle handbrake cable used on the subject vehicles is below the necessary strength requirement (tenaisle stress at 440 kg).

3. **Total number of US vehicles containing the noncompliance:** 128+14+24=166
4. **The percentage of vehicles specified in #2 above estimated to contain the defect/noncompliance:** 100%
5. **Description of the defect/noncompliance:** As a result of the situation described above, the handbrake may not function properly, which could result in unintended vehicle movement and a vehicle crash without warning.
6. **Data on which determination of defect/noncompliance was made:** Learning of strength of cable from supplier.
7. N/A

DRAFT 49 CFR 577 OWNER NOTIFICATION LETTER

Mr. John Doe
123 Elm Street
Any town, State xxxxx

Re: Revision to parking brake recall

Dear QAG Mangusta Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

QAG previously sent you a letter regarding a recall to fix your parking brake mechanism. QAG has decided that another aspect of the parking brake system needs to be replaced and this involves a defect that relates to motor vehicle safety that exists in MY 2000 and 2001 QAG Mangusta vehicles built after November 1999.

The defect consists of the following: the parking brake cable is not of the proper strength. It is possible for the cable to break, rendering the parking brake ineffective. If this were to happen, the vehicle would not hold on a hill or grade. The defect could therefore result in unintended vehicle movement and a vehicle crash without warning.

It is thus important to call QAG immediately in order to arrange an appointment to correct BOTH the original parking brake slippage problem as well as this second parking brake problem.

QAG is taking the following measures to remedy the defect:

- QAG is remedying the defect without charge.
- The defect is being remedied by you bringing your car to QAG or its dealer to have the vehicle inspected and the cable replaced at no charge.
- Call your QAG dealer or QAG at the number set forth below in order to make an appointment. Approximately 2 hour(s) will be needed to do the work.

Please note that you may submit a complaint to the Administrator of the National Highway Traffic Safety Administration, 400 Seventh St. SW Washington DC 20590, or you may call toll free Auto Safety Hotline at 800 424 9393 (Washington DC area residents may call 202 366 0123), if you believe that:

- QAG or your dealer has failed to or is unable to remedy the defect without charge
- QAG or your dealer has failed to or is unable to remedy the defect without charge within a reasonable time, which is not longer than 60 days after you tender the vehicle to the dealer.

ATTACHMENT B

DRAFT DEALER NOTICE

Dear QAG Dealer:

RECALL NOTICE – revised parking brake recall

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

QAG previously sent you a letter regarding a parking brake mechanism recall. QAG has decided that another aspect of the parking brake system needs to be replaced and this involves a defect that relates to motor vehicle safety that exists in MY 2000 and 2001 QAG Mangusta vehicles built after November 1999.

The defect consists of the following: the parking brake cable is not of the proper strength. It is possible for the cable to break, rendering the parking brake ineffective. If this were to happen, the vehicle would not hold on a hill or grade. The defect could therefore result in unintended vehicle movement and a vehicle crash without warning.

QAG will be sending out a service bulletin providing instructions on the work to be performed. The fix must be performed BOTH on cars that have had the first parking brake problem already done as well as those cars that have not yet had the first problem remedied.

Dealers should file a warranty claim for all work done in conjunction with this recall, and shall be permitted no more than 2 hour(s) per car.

QAG is taking the following measures to remedy the noncompliance:

- QAG is remedying the noncompliance/defect without charge.
- The noncompliance/defect is being remedied by providing affected owners with inspection, and installation of the new cable to be done by QAG or its dealers. Owners will be notified on or about _____.
- Owners have been instructed to call for an appointment and that approximately 2 hour(s) will be needed to inspect and if necessary, replace.
- NOTE – if an owner already brought his or her car in for the original parking brake repair, IT IS STILL NECESSARY FOR HIM OR HER TO BRING THE CAR BACK TO THE DEALER A SECOND TIME IN ORDER TO EFFECT THIS SECOND REPAIR.

WITH REGARD TO VEHICLES IN YOUR INVENTORY, according to QAG's records, you have the vehicles on the attached list that are affected by this recall. Please inspect these cars immediately and perform the work set forth in the forthcoming service bulletin.

Re: revision to parking brake recall

Dear QAG Mangusta Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

QAG previously sent you a letter regarding a recall to fix your parking brake mechanism, and you have already had this problem remedied at your dealer. Unfortunately, QAG has decided that another aspect of the parking brake system needs to be replaced and this involves a defect that relates to motor vehicle safety that exists in MY 2000 and 2001 QAG Mangusta vehicles built after November 1999.

The defect consists of the following: the parking brake cable is not of the proper strength. It is possible for the cable to break, rendering the parking brake ineffective. If this were to happen, the vehicle would not hold on a hill or grade. The defect could therefore result in unintended vehicle movement and a vehicle crash without warning.

It is thus important to call QAG immediately in order to arrange another appointment to correct this second parking brake problem.

QAG is taking the following measures to remedy the defect:

- QAG is remedying the defect without charge.
- The defect is being remedied by you bringing your car to QAG or its dealer to have the vehicle inspected and the cable replaced at no charge.
- Call your QAG dealer or QAG at the number set forth below in order to make an appointment. Approximately 2 hour(s) will be needed to do the work.
- NOTE – even though you already brought your car in for the original parking brake repair, **IT IS STILL NECESSARY FOR YOU TO BRING YOUR CAR BACK TO A QAG DEALER A SECOND TIME IN ORDER TO EFFECT THIS SECOND REPAIR.** We apologize for the inconvenience.

Please note that you may submit a complaint to the Administrator of the National Highway Traffic Safety Administration, 400 Seventh St. SW Washington DC 20590, or you may call toll free Auto Safety Hotline at 800 424 9393 (Washington DC area residents may call 202 366 0123), if you believe that:

- QAG or your dealer has failed to or is unable to remedy the defect without charge
- QAG or your dealer has failed to or is unable to remedy the defect without charge within a reasonable time, which is not longer than 60 days after you tender the vehicle to the dealer.
