RECALL 77

RE: BODY SERIAL
CHASSIS SERIAL

Dear Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Our records indicate that you have purchased a vehicle with the serial number/VIN that appears above.

REASON FOR THIS RECALL

Winnebago Ind., Inc. has determined that a defect, which relates to motor vehicle safety, exists in certain Winnebago motor homes. These vehicles were manufactured between October 2, 1999 and July 25, 2000. The front axle and/or front tires of the vehicle may encounter unequal side-to-side loading due to inappropriate loading or the vehicles leveling device becoming improperly adjusted. Should this occur one or more of the front axle components may fail and personal injury and/or property damage may result.

WHAT WE WILL DO

Winnebago Industries, Inc. will correct this overloading condition by replacing defective components including tires, where necessary, with appropriate components.

WHAT YOU SHOULD DO

Please contact your Winnebago Industries, Inc. dealer immediately to arrange for an appointment. Please allow sufficient time for your dealer to obtain the correct components to repair your vehicle. Also, please allow time for your dealer to process your vehicle.

HOWEVER, if you take your vehicle to the dealer on the agreed date and he does not service this condition on that date or within five days, we recommend you contact Winnebago Industries, Inc., Attention: Owner Relations Representative (641/585-6939).
