

Safety Defect and Noncompliance Report Guide for Equipment  
**PART 573 Defect and Noncompliance Responsibility and Reports**<sup>1</sup>

06E-026  
(11 pgs.)

**On March 21, 2006, PRO-A Motors, Inc. [Importer] decided that a noncompliance with Federal Motor Vehicle Safety Standard No. 108 exists in items of motor vehicle equipment listed below, and is furnishing notification to the National Highway Traffic Safety Administration in accordance with 49 CFR Part 573 Defect and Noncompliance Responsibility and Reports.**

**Date this report was prepared:** March 21, 2006

**Furnish the manufacturer's identification code for this recall (if applicable):** N/A

**1. Identify the full corporate name of the fabricating manufacturer/brand name/trademark owner of the recalled item of equipment. If the recalled item of equipment is imported, provide the name and mailing address of the designated agent as prescribed by 49 U.S.C. §30164.**

PRO-A Motors, Inc.  
6423 E. Washington Blvd.  
Commerce, CA 90040

**Identify the corporate official, by name and title, whom the agency should contact with respect to this recall.**

Benny Lin (President)

**Telephone Number:** (323)838-2988 **Fax No.:** (323)838-2977

**Name and Title of Person who prepared this report.**

Benny Lin (President)

**Signed:**

RECEIVED  
MARCH 23 4 00  
COMMERCIAL

<sup>1</sup> Each manufacturer must furnish a report, to the Associate Administrator for Enforcement, for each defect or noncompliance condition which relates to motor vehicle safety.

This guide was developed from 49 CFR Part 573, "Defect and Noncompliance Responsibility and Reports" and also outlines information currently requested. Any questions, please consult the complete Part 573 or contact Mr. George Person at (202) 366-5210 or by FAX at (202) 366-7882.

**I. Identify the Recalled Items of Equipment**

**2. Identify the Items of Equipment Involved in this Recall, for each make and model or applicable item of equipment product line (provide illustrations or photographs as necessary to describe the item of equipment), provide:**

**Generic name of the item:** Combination lamps

**Make:** \_\_\_\_\_ **Model:** Make, Model, and Part Numbers are supplied in list attached.

**Part Number:** \_\_\_\_\_ **Size:**

**Function:** All are combination lamps designed to be mounted at or near the front of a motor vehicle.

**Other information which characterizes/distinguishes the items of equipment to be recalled:**

These parts do not have amber side reflex reflectors like they do in the OE combination lamps.

**Make:** \_\_\_\_\_ **Model:**

**Part Number:** \_\_\_\_\_ **Size:**

**Function:**

**Other information which characterizes/distinguishes the items of equipment to be recalled:**

**Make:** \_\_\_\_\_ **Model:**

**Part Number:** \_\_\_\_\_ **Size:**

**Function:**

**Model Years Involved:**

**Other information which characterizes/distinguishes the items of equipment to be recalled:**

**Make:** \_\_\_\_\_ **Model:**

**Part Number:** \_\_\_\_\_ **Size:**

**Function:**

**Other information which characterizes/distinguishes the items of equipment to be recalled:**

Identify the approximate percentage of the production of all the recalled models manufactured [/imported] by your company between the inclusive dates of manufacture provided above, that the recalled model population represents. For example, if the recall involved Widgets equipped with certain items of equipment from January 1, 1996, through April 1, 1997, then what was the percentage of the recalled Widgets of all Widgets manufactured during that time period.

100%

## II. Identifying the Recall Population

3. Furnish the total number of items of equipment recalled potentially containing the defect or noncompliance.

Items Model	Year	Number of Potentially
----------------	------	--------------------------

### Involved

List is attached.

---

---

---

---

---

---

Total Number Potentially Affected by the  
Recall: 61,944

4. Furnish the approximate percentage of the total number of items of equipment estimated to actually contain the defect or noncompliance: 100%

Identify and describe how the recall population was determined--in particular how the recalled models were selected and the basis for the beginning and final dates of manufacture of the recalled items of equipment:

Items were selected if they are combination lamps designed to be mount at or near front of a motor vehicle that do not have amber side reflex reflectors like they do in the OE combination lamps sold after January 1, 2004 to date.

---

### **III. Describe the Defect or Noncompliance**

**5. Describe the defect or noncompliance. The description should address the nature and physical location of the defect or noncompliance. Illustrations should be provided as appropriate.**

They do not have amber side reflex reflectors like they do in the OE combination lamps.

---

---

**Describe the cause(s) of the defect or noncompliance condition.**

As we are not a manufacturer, but a distributor. We rely on our vendors to be compliant, conduct testing and, as the companies we purchase from are Original Equipment suppliers, we in good faith believed that all products were compliant.

---

**Describe the consequence(s) of the defect or noncompliance condition.**

No amber side reflex reflector decreased lighting visibility.

---

---

---

**Identify any warning which can (a) precede or (b) occur.**

Not applicable.

---

---

**If the defect or noncompliance is in a component or assembly purchased from a supplier, identify the supplier by corporate name and address.**

Purchased from Depo Auto Part Ind. Co., Ltd. (No. 161, 5 Fl. Chien Kuo S. Road, Sec. 1, Taipei, Taiwan), but exported by Yin Lien Trading Co., LTD. (1F, #127 Fu Tien Rd. S. Dist., Taichung City, Taiwan)

---

---

**Identify the name and title of the chief executive officer or knowledgeable representative of the supplier:**

Unknown, but the Sales Rep. is Mike Hu.

---

#### **IV. Provide the Chronology in Determining the Defect/Noncompliance**

*If the recall is for a defect, complete item 6, otherwise item 7.*

**6. With respect to a defect, furnish a chronological summary (including dates) of all the principle events that were the basis for the determination of the defect. The summary should include, but not be limited to, the number of reports, accidents, injuries, fatalities, and warranty claims.**

**7. With respect to a noncompliance, identify and provide the test results or other data (in chronological order and including dates) on which the noncompliance was determined.**

7. There were no test results available. We were informed by Mr. Jeffrey Giuseppe's January 9, 2006 letter that our combination lamps, may not comply with regulations because they do not have the amber reflectors like those in the original equipment (OE) lamps being replaced. That was when we realized these lamps may not be compliant.

---

#### **V. Identify the Remedy**

**8. A description of the manufacturer's program for remedying the defect or noncompliance. This program shall include a plan for reimbursing an owner or purchaser who incurred costs to obtain a remedy for the problem addressed by the recall within a reasonable time in advance of the manufacturer's notification of owners, purchasers and dealers, in accordance with §573.13 of this part. A manufacturer's plan may incorporate by reference a general reimbursement plan it previously submitted to NHTSA, together with information specific to the individual recall. Information required by §573.13 that is not in a general reimbursement plan shall be submitted in the manufacturer's report to NHTSA under this section. If a manufacturer submits one or more general reimbursement plans, the manufacturer shall update each plan every two years, in accordance with §573.13. The manufacturer's remedy program and reimbursement plans will be available for inspection by the public at NHTSA headquarters.**

We would like to recall from our customers whom we sold the said combination lamps to and reimburse (credit/refund) them along with shipping and handling. In the mean time, all sales and purchases for these items have been ceased.

---

---

**9. Furnish a description of the manufacturer's remedy for the defect or noncompliance. Clearly describe the differences between the recall condition and the remedy.**

Not applicable. As we are not the manufacturer but a distributor, we can only recall the products and discontinue selling them.

---

---

---

**Clearly describe the distinguishing characteristics of the remedy component/assembly versus the recalled component/assembly.**

Not applicable.

---

---

---

**Identify and describe how and when the recall condition was corrected in production. If the production remedy was identical to the recall remedy in the field, so state. If the product was discontinued, so state.**

Products have been discontinued.

---

---

---

---

---

## VI. Identify the Recall Schedule

**10. Furnish a schedule or agenda (with specific dates) for notification to other manufacturers, dealers/retailers, and purchasers. Please, identify any foreseeable problems with implementing the recall.**

Recall will be done immediately.

---

---

---

---

---

---

---

## VII. Furnish Recall Communications

**11. Furnish a final copy of all notices, bulletins, and other communications that relate directly to the defect or noncompliance and which are sent to more than one manufacturer, distributor, or purchaser. This includes all communications (including both original and follow-up) concerning this recall from the time your company determines the defect or noncompliance condition on, not just the initial notification. *A DRAFT copy of the notification documents should be submitted to this office by Fax (202-366-7882) for review prior to mailing.***

**Note: These documents are to be submitted separately from those provided in accordance with Part 579.5 requirements.**

As attached.

3/20/2006
