March 21, 2006

Dear Valued Customers:

The items on the attached list are being discontinued by our company effective immediately. We did not manufacture these parts; they were sourced from another company. We were contacted by the Department of Transportation (DOT) and informed that these:

“[C]ombination lamps manufactured to replace combination lamps incorporating amber side reflex reflectors, may not comply with one or more requirements of [the] regulations”.

“For example, if an original equipment (OE) combination lamp is equipped with the amber side marker lamp, amber side reflex reflector, parking lamp, front turn signal lamp, and headlamp required for certification of the motor vehicle, then a combination lamp that is manufactured to replace that combination lamp must also be designed to conform to the requirements applicable to those devices.”

We will respect and comply with Federal Motor Vehicle Safety Standard No. 108 and the DOT's interpretation of it. Therefore, we are recalling the parts, we can no longer supply them, and we removed them from our product line.

We will issue credits, for the purchased price, for returned recall items. No depreciation for use will be taken off of the price nor will there be any re-stocking fee. As we did not manufacture these parts, we are only recalling items sold by our company. Any parts purchased from other companies will not be credited. Please return the products with a copy of the original invoice/sales order, and be sure to include a copy of any Shipping and Handling incurred for returning these products -- when we receive them, we will credit/refund (whichever is appropriate) your account with Shipping and Handling.

We apologize for any inconvenience this might have caused. If you have any comments or questions, or we can be of further assistance, please do not hesitate to call. We appreciate your support and hope 2006 to be a successful year for all of us.

Sincerely,

Benny Lin
President
