

SAFETY RECALL NOTICE RECEIVED
Voluntary Safety Recall Campaign 06E043 2006 JUL 11 A 9:47

TO: Valued Customer

Date: June 6, 2006

RE: Recall of FRAM Fuel Filters Part G3727 (Only Date Codes and Country of Origin Listed Below)

Dear Valued Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Honeywell Consumer Products Group has decided that a defect which relates to motor vehicle safety exists in certain fuel filters manufactured in Mexico and distributed by Honeywell under the FRAM brand name. These products were intended for aftermarket installation on the vehicle applications listed in the attached table. Honeywell is voluntarily recalling the affected product.

Identification of fuel filters covered by the recall

The subject fuel filters were manufactured in Mexico from October 18, 2005 through March 21, 2006, and were sold exclusively in the aftermarket. The part number is G3727 and the intended vehicle applications of the affected products are listed in the attached table.

Important Note: This recall does not involve all G3727 filters. Rather, only products with (i) date codes X52911 through X60801 sequentially or X600141 and (ii) a Mexico country of origin marking on the fuel filter housing are subject to this recall. A depiction of the product showing location of the date code and country of origin is attached to this notice for your convenience.

Description of Defect

The connector on the fuel filter was not manufactured to Honeywell's specification. As a result, the O-ring may not seat correctly on the fuel line. This condition may cause an inadequate seal at this connection, potentially leading to a fuel leak (i.e., wetting or dripping) and possible vehicle fire.

What You Should Do

(a) Recalled product in inventory: Our records indicate that you may have purchased the subject fuel filter from us. You will receive credit for returned unused fuel

filters in their original packaging. Please contact FRAM Customer Service at 1-800-890-2075 (option 1) to request an RGA Number. If you have used fuel filters, please contact FRAM Customer Service at the number above for further instructions.

Replacement fuel filters are currently available for shipment to you. Please contact us for credit, return and other instructions as soon as possible. Please note that it is a violation of federal law to sell the recalled fuel filters.

(b) Recalled product in the hands of your customers and owners: Please forward copies of this letter to reselling customers who have purchased from you. Resellers should return all inventory of unused fuel filters in their original packaging to their FRAM supplier (FRAM direct customer). RGA's will be issued to direct FRAM customers. If reselling customers have used fuel filters, they should contact FRAM Customer Service at 1-800-890-2075 (option 1) for further instructions.

(c) Post the enclosed in store bulletin in every location where the subject fuel filters were sold. Please post the bulletin in a conspicuous location where consumers typically find this type of information.

We also request that you transmit copies of the attached letter to owners of the subject fuel filters through your distribution system. It advises owners of steps to be taken by them to obtain a replacement fuel filter free of charge.

* * *

If you have any questions, please contact your FRAM Sales Representative or call FRAM Customer Service at 1-800-890-2075 (option 1). You may also contact the Administrator, National Highway Traffic Safety Administration, at 400 Seventh Street, S.W., Washington, D.C. 20590; or call the toll-free Auto Safety Hotline at 1-888-327-4326 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>, if you are unable to obtain a remedy without charge within a reasonable time. We appreciate your cooperation and apologize for any inconvenience.

The part number (G3727), country of origin (Mexico) and the date code (e.g., X60031) are located on the side of the fuel filter.

The UPC number (009100350855) and the part number (G3727) are located on the end of the carton.

The date code (e.g., X60031, Jan 3, 2006), the part number (G3727) and the country of origin (Mexico) are located on the side of the shipping carton.
