

To: Our Valued Customers  
Date: December 8, 2006  
Subj: SAFETY ADVISORY

Compass is announcing a Safety Advisory. This advisory affects 1233 units of the I420 LP Infant Car Seat. The affected model numbers and manufacturing dates are as follows:

I420-ARD  
I420-FUO  
I420-MAR

The manufacturing dates are 5/7/06, 5/13/06 and 5/15/06. The manufacturing date is located in the upper right hand corner of the top flap of the carton next to the description label.

We discovered this issue during our own ongoing crash testing. A metal slide can become disengaged from the shell if it is not properly seated during assembly ultimately causing a slight crack in the shell during testing. It's important to note there have been no reports of injuries and no calls from consumers regarding problems.

The problem is easy to fix. It requires a free flat head screwdriver provided by Compass and a few seconds. We will be sending you instructions and consumer posters for your store under separate cover. Please direct consumers who have questions to our consumer hotline 888-899-2229. Repair instructions will also be posted on our website: [www.compassbaby.com](http://www.compassbaby.com)

Compass will send consumers who registered their car seat a free repair kit with instructions.

# Compass I420 Inventory Remediation Plan 06C-006

## Compass Warehouse Inventory

Compass will inspect and correct the incorrect positioning of the crotch anchor at the Compass warehouse in California and Ohio. All units that are inspected will be labeled with the following labels to show the inspection has been completed. This will include any inventory that is returned from the retailers due to the Safety Campaign.

## Retail Inventory

Inventory not returned but is repaired at the retailers will have the same labeling to indicate inspection or repair.

3 inch Carton Label

Location- Top Flap

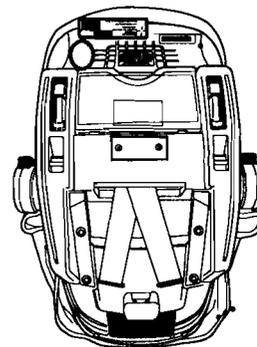

NOT TO SCALE

1 Inch Product Label

Location- Bottom of Infant Restraint

06C-006

## Model I-420 Infant Child Restraint

I420-ARD, I420-FUO & I420-MAR

Compass is recalling its I420 Infants Child Restraints Manufactured between May 7, 2006 and May 15, 2006. The Infant Child restraint may have a crotch anchor that is assembled out of position that permits a technical non-compliance to Federal Motor Vehicle Standard 213.

Date Stamp

Sample I420 DOM Label

 400000308	<b>Compass</b> P.O. Box 429 Kings Mills, OH 45034-9381 1-888-899-2229 www.compassbaby.com Made in China/Fabricado en China	Model Number: <b>I420-ARD</b>	Date of Manufacturer <b>05/07/06</b>	
			Do Not Use After <b>05/07/13</b>	

The date of manufacturer is stamped on the Date of Manufacturer Label shown in the diagram. Dates appear as a series of six. For example May 7, 2006 would appear as 05/07/06. If you own one of the I420 Infant Restraints manufactured during this period please call Compass for a free repair kit.

The only affected Infant Restraints are of the same model as listed above and were manufactured during the specified period.
