

Safety Recall ALERT

Date: July 27, 2007 **Number:** SRA-07-02
To: All U.S. & Canadian Distributors
Attention: Service Manager, Warranty Manager, Parts Manager, Dealer Principal
From: Regulatory Affairs Department
Subject: Safety Recall, RVXX0702, Steering Shaft Locknut

Safety Recall Summary:

On certain Volvo VHD, VNL, VNM, and VT model vehicles manufactured from November 14, 2006 through May 30, 2007, the locknut used to retain the steering shaft may not have had the lock feature. If the nut were to come loose and be left untreated, the steering shaft could potentially separate.

The number of vehicles affected is approximately 10,707 (9,264 US, 986 Canada and 457 Export).

Dealer's Responsibility:

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act requires dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.

Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Release Schedule:

- Repair Instructions are tentatively scheduled for release no later than August 14, 2007.
- Vehicle list will be posted on the Trucks Dealer Portal July 26, 2007.
- Owner Notices are scheduled to be mailed on or before August 24, 2007.

Questions:

Contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com if you have questions.
