

# VULCAN® 900 FUEL HOSE INSPECTION/REPLACEMENT WARNING AND RECALL NOTICE

Dear Kawasaki VULCAN® 900 Owner:

This notice has been sent to you in accordance with requirements of the National Traffic and Motor Vehicle Safety Act.

## **The reason for this notice:**

Kawasaki Motors Corp., U.S.A. has decided that a defect which relates to motor vehicle safety exists in VULCAN® 900 Classic, Custom, & Classic LT models (VN900B6F/L, B7F/L, C7F/L, C8F/L, D6F/L, D7F/L, D8F/L). On some eligible units, the fuel hose may not be securely connected to the fuel injector delivery pipe. Continued use of the vehicle can result in the fuel hose coming off, creating the possibility of a fuel leak resulting in fire or explosion that could cause injury or death. Our records indicate that you have purchased one of these units.

## **What Kawasaki and your dealer will do:**

Your Kawasaki dealer will correct this problem for you at no charge. The correction will consist of inspecting the fuel hose connection at the fuel injector delivery pipe and fuel pump and replacing the fuel hose if the joint lock is found to be damaged. The actual repair will take up to 30 minutes but may take longer due to scheduling at the dealership and the time needed to obtain required parts.

## **What you must do to ensure your safety:**

Please call your authorized Kawasaki motorcycle dealer to schedule an appointment and take this letter with you at the time of your appointment.

## **UNTIL THE INSPECTION HAS BEEN COMPLETED**

- DO NOT OPERATE YOUR MOTORCYCLE.
- STORE YOUR MOTORCYCLE IN A WELL VENTILATED AREA AWAY FROM ANY SOURCE OF IGNITION.
