## SAFETY RECALL G-07505

JUNE 2008

### RECALL REMINDER – 2<sup>ND</sup> NOTICE

Dear International Customer,

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Navistar has decided that a defect which relates to motor vehicle safety exists in certain 4000, 7000, 8000, 9000 and ProStar™ models built 11/15/2006 thru 2/19/2007 with Dana Spicer® 23065, S23-170, S23-170D, D40-170P/R40-170D, DST40/RST40 Tandem, DST41/RST41 Tandem or DST41P/RST41 Tandem rear axles.

This is a **follow-up** notice to the initial safety recall notification mailed in MAY 2007. International's records indicate the vehicle identified on the enclosed Authorization for Recall Service card has not yet had the repair performed. If the repair has been performed, please fill out and return mail the card so you will not be contacted again about this recall.

#### **REASON FOR THIS RECALL**

One or both of a suspect vehicle's rear axle housings may contain thinner material than what is necessary for normal vehicle operation. Over time, this thinner material may experience a fatigue failure of the rear axle housing, possibly in the location of the brake flange.

#### **RISK TO MOTOR VEHICLE SAFETY**

A crack in the brake flange location of the rear axle housing may result in a wheel end lockup or wheel separation possibly resulting in property damage, personal injury or death.

#### **ACTIONS YOU SHOULD TAKE**

**PLEASE contact your local INTERNATIONAL® dealer** to schedule an appointment to have your vehicle inspected or repaired. You may locate your nearest International dealer by calling 1-800-448-7825 or by visiting:

<http://www.navistar.com>

**The repair will involve an ultrasonic inspection of your rear axle housings by a third party inspection service to determine their wall thickness.**

Please allow up to **3 days** after your initial contact with your International dealer before arrangements can be finalized between the dealer and the third party inspection service regarding your vehicle.

Your dealer will make all necessary arrangements and work with you to determine the best time and place to have your vehicle inspected.

The inspection will determine if the axle housing requires replacement. If replacement is necessary, your dealer will make all necessary arrangements and work with you to arrange this replacement.

Please note, however, it may take up to **10 days** from the inspection before axle housing replacement arrangements can be finalized.

Dealers will have instructions to arrange for inspection of your vehicle by **5/18/2007**.

The inspection will be performed **free of charge** and may take approximately **30 minutes** to complete.

If an axle housing replacement is required, it too will be performed **free of charge** and may take **6 to 8 hours** to complete.
