**Re: Roush Industries, Inc. Recall # 11E-033  
Amended 3<sup>rd</sup> Quarter Report 2011 and 4<sup>th</sup> Quarter Report 2011**

Dear Ms. Schuler:

Enclosed please find Roush Industries, Inc.'s Part 573 Quarterly Report for the period ending December 31, 2011 as well as its Amended 3<sup>rd</sup> Quarterly Report for the period ending September 31, 2011.

Please be advised that we reviewed our records and although we reported 85 completed repairs in our 3<sup>rd</sup> Quarterly Report for 2011, we in fact only had 24 completed repairs in the field. The additional reported repairs were to kits in our inventory that had not yet shipped. We apologize for this error and confirm that the attached Amended 3<sup>rd</sup> Quarterly Report for the period ending September 30, 2011 is accurate.

With regard to the attached 4<sup>th</sup> Quarterly Report, 61 kits were remedied between 10/1 – 12/30/2011. Further, as of today's date, we have received telephone confirmation that an additional 45 kits have been remedied this month, and 98 additional repair kits have been sent out to service centers for future installation.

We appreciate this opportunity to cooperate with NHTSA.

Thank you,

Joseph Thompson  
President of Roush Clean Tech acting as the  
Authorized Representative of Roush Industries, Inc.
