To: EA12-001 File

On April 12, 2012, a video WebMeeting was held with Chrysler Group LCC on EA12-001 Jeep Liberty Airbag Investigation. Chrysler provided a status of the testing to date. No material was distributed during the meeting. Chrysler subsequently on April 16, 2012 submitted the WebMeeting presentation material (both a public and Confidential Business Information (CBI) versions) to NHTSA and requested confidentiality on the CBI material. Attachment 1 contains the list of attendees during the WebMeeting. The public version of the presentation material has also been placed in the investigation folder under a separate request.

If you have any questions, please contact Peter Ong on 60583.
