

Safety Recall Notice
Axess[®] and EZ Rider II Max[®]

Dear Customer:

This **Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act.

Eldorado National has decided that a defect which relates to motor vehicle safety exists in certain *Axess and EZ Rider II Max* buses manufactured between October 1, 2010 and October 31, 2010 that have Ricon egress windows installed.

The Ricon Corporation has decided that failures can occur to the release handles of the windows. The handle of the window was cast with a material that cannot withstand the force of actuation. As a result the handle may break when the application of the actuation force is applied. This may result in passengers being unable to exit the bus in the event of an emergency.

What We Will Do

Eldorado National in cooperation with Ricon will provide owners of all affected vehicles replacement handles for their vehicles. There will be no charge for parts or labor to replace these handles.

What You Should Do

You are to contact the nearest Eldorado National dealer or repair facility to schedule an immediate inspection of your bus. If you experience trouble in locating a dealer, please contact Eldorado National at 1-800-338 3211. The work will take less than one hour to complete. However, additional time may be required depending on your inspection and their shop schedule.
