Re: Keystone RV Company
 Defect and Non-Compliance Report

Dear Ms. Lewis:

Keystone RV Company ("Keystone") has identified a vehicle non-compliance with 49CFR Part 567 in the recreational vehicles listed below, and is furnishing notification to the National Highway Traffic Safety Administration in accordance with 49 CFR Part 573 Defect and Noncompliance Reports.

- A. Recall Population and Vehicle Identification. The recall population includes the following product brands manufactured by Keystone.

<u>Product Brand</u>	<u>Number of Vehicles</u>
----------------------	---------------------------

2013 Springdale 266RLSSR and 267BHSSR Travel Trailers Production Date: 11/19/2012 - 2/5/2013	
---	--

The total number of vehicles subject to this recall campaign is:	37
--	----

- B. Description of Defect. The vehicles subject to this recall campaign were manufactured with the incorrect information on the Federal Identification Tag and Tire and Loading Information Label. The tire inflation pressure is listed as 448 KPA (65 PSI) and is supposed to be 345 KPA (50 PSI). The incorrect tire inflation pressure increases risk of tire failure and property damage.
- C. Basis for Determining that a Defect Exists. February 6, 2013. The defect was discovered when a dealer notified us of the discrepancy between what was listed on the tag vs. the tire. A review of the information stored on file for each vehicle led to the determination of the models involved and the beginning and ending production range.

- D. Remedying of Defect. The remedy is to replace the Federal Identification Tag and Tire and Loading Information Label with the correct one supplied by Keystone.
- E. Owner Notifications. Keystone will notify the owners of the recreational vehicles by letter beginning in February 2013 pending NHTSA approval. A final copy of the owner letter will also be provided to NHTSA.
- F. Quarterly Reporting Requirements. Keystone will be filing quarterly reports in connection with this recall campaign.
- G. Campaign Number. Keystone's identification code for this recall is 13-189.

If you need any additional information regarding this recall campaign, please feel free to contact me at 574-537-3925.

Sincerely,

Garett Carolus
Keystone RV Company
