

**Acura Recall Voice Alert to Customer**

**NHTSA ID: 13V-092**

**Date: April 22, 2013**

Acura recently mailed to you an important safety recall notice regarding your 2005 or 2006 MDX/2005 RL. This notice explains that your Vehicle Stability Assist unit may have been damaged during manufacturing. A damaged VSA system may apply a small amount of braking force even if the driver has not pressed the brake pedal. If the driver applies the brakes during a malfunction, the VSA system may cause the vehicle to come to an abrupt stop, increasing the risk of crash. The notice also outlines what you need to do, including how to obtain the recall repair, free of charge, at any authorized Acura dealer. If you need help finding an Acura dealer, or do not receive the notice within five days, please call 1-800-382-2238, and select option 4. Thank you.
