For Immediate Release

**Statement by American Honda Regarding VSA Non-compliance Recall:
2012-2013 Honda Fit Sport**

TORRANCE, Calif. – Apr. 26, 2013 – Honda will voluntarily recall 43,782 model-year 2012-2013 Fit Sport vehicles in the United States to update the Vehicle Stability Assist (VSA) system software, free of charge. The VSA system on certain 2012-2013 model year Honda Fit Sport vehicles equipped with certain tires may allow yaw rates that exceed certain U.S. Federal Motor Vehicle Safety Standards (FMVSS) requirements. This issue was discovered during FMVSS compliance testing, and Honda is not aware of any related crashes or injuries.

Honda is announcing this recall to encourage owners of all affected vehicles to take their vehicles to an authorized dealer as soon as they receive notification of this recall from Honda. Mailed notification to customers will begin in mid-May, 2013. In addition to contacting customers by mail, at that time, owners of these vehicles will be able to determine if their vehicles require repair by going to www.recalls.honda.com or by calling (800) 999-1009, and selecting option 4.
