Dear Sir or Madam:

Pursuant to 49 CFR Part 573, Jayco, Inc. (“Jayco” or the “Company”) is submitting this report to NHTSA concerning a recall campaign, which is being voluntarily initiated. Specific information is as follows:

573.6(c)(2)

Affected vehicles are 2014 White Hawk Travel Trailers.

The affected vehicles were manufactured between May 17, 2013 and May 21, 2013.

The recall population was determined from the manufacturing records for the Company’s manufacturing plant in Middlebury, Indiana, which produced the affected recreational vehicles.

573.6(c)(3)

A total of 17 vehicles are subject to this recall. Specific Vehicle Identification Numbers (VIN) are as follows:

Model year 2014 vehicles with a starting VIN of 1UJB0BP0E14C0127 and ending with 1UJB0BPXE14C0135.

573.6(c)(4)

Jayco is recalling 100 percent of the affected vehicles identified in the scope.

573.6(c)(5)

Jayco has determined that on certain recreational vehicles the converter may not be properly grounded to the frame. This could result in a buildup of excessive heat and melting of the wiring. If this condition is not addressed, it may result in a fire, injury, or death.

573.6(c)(6)

On May 30, 2013 Jayco manufacturing identified a problem with the electric grounding of the converter. During the course of the investigation it was determined that a safety recall was appropriate.

573.6(c)(8)

The remedy for the affected vehicles is to inspect the wiring for the converter and add the provided ground wire which will be attached to the frame.

Copies of the repair instructions, dealer notification letters, and owner letters will be provided to the agency within 10 business days. Jayco is contacting all dealers and retail owners of the affected vehicles. Upon notification Jayco is prepared to begin dealer notification within 5 business days after approval, and to owner's ten business days subsequent to dealer notification. We anticipate the letters will be mailed in June 2013.

Thank you for your assistance,
