Quarterly Recall Completion Report

Elite Trailer Manufacturing, LLC has recalled 100% of the trailers affected by the above recall.

On or about January 20, 2012 we were notified of the potential problem Carlisle actuators (Carlisle Recall 12E-003). As soon as we were informed of the problem we

- 1) reviewed our inventory of actuators for units falling within the recalled serial number sequence
- 2) identified trailers previously manufactured with actuators included within the recalled serial number sequence.

We identified three (3) trailers manufactured with recalled actuators.

One of the trailers had not yet been picked-up by our dealer; we changed out that actuator at our manufacturing facility.

The other two trailers containing the recalled actuators had been picked-up by our dealers but had yet to be delivered to a retail customer. Carlisle shipped replacement actuators directly to our dealers and they installed the replacements immediately.

Should you have any questions, please do not hesitate to contact me at [walters@elitetrailer.com](mailto:walters@elitetrailer.com) or 405-745-5757 x106.

Sincerely,

Clyde Walters
