OWNER NOTIFICATION

NHTSA RECALL 13V-069 NHTSA RECALL 13V-139

Dear Nissan Pathfinder owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety exists in some 2013 model year Nissan Pathfinder vehicles. Our records indicate that you own the Nissan vehicle identified by the Vehicle Identification Number on the inside of this notice.

Reason for Recall

The Occupant Classification System (a part of the passenger air bag system) in the front passenger seat may have been manufactured out of specification. In some cases, this could deactivate the passenger air bag in your vehicle. If this occurs, the red air bag warning light will illuminate and stay illuminated after the vehicle is started (it is normal for the red air bag warning lamp to flash for about seven seconds when the vehicle is first started). This could result in the passenger air bag not inflating in a crash, potentially increasing the risk of injury.

In addition to the above defect, the front brake torque members may crack due to improper manufacturing. This condition could cause the front brake caliper to separate and contact the wheel which could result in reduced braking function and steering control and/or an air leak from the tire. If this occurs, it may increase the risk of a crash. Although this could occur without warning, a noticeable noise or vibration from the front wheels may indicate that your vehicle is affected.

What Nissan Will Do

Your Nissan dealer will inspect the OCS sensors and the driver and passenger side front torque brake members free of charge. This free inspection service should take less than an hour to complete. If it is necessary to replace the parts mentioned above, the amount of time required to complete the service may take up to four hours. Your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule, or parts availability.

What You Should Do

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle inspected and, if necessary, repaired. Please bring this notice with you to your service appointment. Instructions have been sent to your Nissan dealer.

If the red air bag warning light in your vehicle continuously illuminates after the vehicle is started, please take your vehicle to the dealership as soon as possible. In the interim do not allow passengers to ride in the passenger seat.

In addition, if you hear a noticeable noise or feel a vibration from the front wheels, stop driving your vehicle and contact your dealer as soon as possible to have the vehicle inspected. If the dealer fails, or is unable to make the necessary repairs free of charge, you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003.

The toll free number is 1-800-NISSAN1 (1-800-647-7261). You may also contact the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.

OWNER NOTIFICATION

NHTSA RECALL 13V-069

NHTSA RECALL 13V-139

Dear Infiniti JX owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Infiniti has decided that a defect which relates to motor vehicle safety exists in some 2013 model year Infiniti JX vehicles. Our records indicate that you own the Infiniti vehicle identified by the Vehicle Identification Number on the inside of this notice.

Reason for Recall

The Occupant Classification System (a part of the passenger air bag system) in the front passenger seat may have been manufactured out of specification. In some cases, this could deactivate the passenger air bag in your vehicle. If this occurs, the red air bag warning light will illuminate and stay illuminated after the vehicle is started (it is normal for the red air bag warning lamp to flash for about seven seconds when the vehicle is first started). This could result in the passenger air bag not inflating in a crash, potentially increasing the risk of injury.

In addition to the above defect, the front brake torque members may crack due to improper manufacturing. This condition could cause the front brake caliper to separate and contact the wheel which could result in reduced braking function and steering control and/or an air leak from the tire. If this occurs, it may increase the risk of a crash. Although this could occur without warning, a noticeable noise or vibration from the front wheels may indicate that your vehicle is affected.

What Infiniti Will Do

Your Infiniti retailer will inspect the OCS sensors and the driver and passenger side front torque brake members free of charge. This free inspection service should take less than an hour to complete. If it is necessary to replace the parts mentioned above, the amount of time required to complete the service may take up to four hours. Your Infiniti retailer may require your vehicle for a longer period of time based upon their work schedule, or parts availability.

What You Should Do

Contact your Infiniti retailer at your earliest convenience in order to arrange an appointment to have your vehicle inspected and, if necessary, repaired. Please bring this notice with you to your service appointment. Instructions have been sent to your Infiniti retailer.

If the red air bag warning light in your vehicle continuously illuminates after the vehicle is started, please take your vehicle to the retailer as soon as possible. In the interim do not allow passengers to ride in the passenger seat.

In addition, if you hear a noticeable noise or feel a vibration from the front wheels, stop driving your vehicle and contact your retailer as soon as possible to have the vehicle inspected. If the retailer fails, or is unable to make the necessary repairs free of charge, you may contact the National Consumer Affairs Department, Infiniti Division, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-662-6200. You may also contact the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.
