## **SAFETY RECALL NOTICE**

May, 2013  
Dear NABI Customer:

NHTSA Campaign # 13V-108  
NABI Recall # 20132

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. North American Bus Industries, Inc. (NABI) has decided that a defect which relates to motor vehicle safety exists in certain 40 LFW model city transit buses manufactured between November 10, 2012 and March 10, 2013

Our records identify you as the owner of the vehicle(s) shown on the attached list that are affected by this recall.

### **REASON FOR THIS RECALL**

NABI has decided that certain model 40LFW city transit buses equipped with adjustable brake and throttle pedals, may have brake pedals that do not fully release after the brakes are applied.

The brake valve and pedal assembly may not fully release the brakes after application of the brakes. Some air pressure may remain applied to the service brakes. Should this occur, the brakes may overheat while driving and could result in a fire.

### **ACTION YOU SHOULD TAKE**

NABI will inspect and repair all the buses as soon as parts are available. The repair will consist of an inspection and cleaning of the brake pedal assembly. Affected brake pedal assemblies will be repaired or replaced.

NABI will inspect and repair the vehicles free of charge.

NABI anticipates these repairs will be completed in June 2013.

If NABI does not remedy this condition without charge on the mutually agreed upon service date or within 5 days of this agreed upon date, you can obtain assistance by calling NABI Customer Service at (256) 241-1298 or (256) 241-1243. If you believe that NABI has failed to remedy the vehicle without charge within a reasonable time, you may
