Dometic contacted US - LSR Conversions

Describe how the recall population is different from any similar vehicles not subject to this notification:

N/A

III. Description of the Defect or Noncompliance and Chronology of Events

Describe the defect or noncompliance, including a summary and detailed description of the nature and physical location (if appropriate) of the defect or noncompliance. Graphic aids should be provided where necessary.

N/A

Describe the cause(s) of the defect or noncompliance condition.

LSR sent new recall part to dealers.

I don't know

Identify any warning(s) that may precede the defect or noncompliance condition.

I don't know

*For defects*, provide a dated, chronological summary of all the principle events that were the basis for the determination that the defect is related to motor vehicle safety, including a summary of all warranty claims, field or service reports, and other information such as numbers of crashes, injuries and fatalities.

N/A

*For noncompliances*, identify the test results and other information considered in determining the existence of the noncompliance, and provide the date of each test and observation indicative of that noncompliance.

N/A

reimbursing those owners and purchasers who may have incurred costs to remedy the defect or noncompliance before receiving the manufacturer's notification concerning that defect or noncompliance. Also include, where applicable, details with dates concerning any production remedy that was conducted or will be conducted.

I sent recall part to 4 dealers. Dometic paid postage.

Provide the estimated date(s) on which owner and purchaser notifications will be issued and the estimated date(s) for completion of those notifications.

All of them are completed

Provide the estimated date(s) on which dealer and distributor notifications will be issued and the estimated date(s) for completion of those notifications.

All of them are completed

Clearly describe the distinguishing characteristics of the remedy component/assembly versus the recalled component/assembly.
