

August 12, 2013

Cynthia Glass-

In response to the information request for EQ 13-004, the WeatherPro Model 805 and 815 defective awnings that Bravo Trailers purchased from Dometic Corporation were repaired "onsite" for Model 805 and 815.

The WeatherPro awning model # 805 & 815 were quarantined and never left the grounds of Bravo Trailers before the repairs were made. The two affected units were repaired. The repairs were completed April 26th, prior to shipping of these two units.

Bravo Trailers has resolved the issue's with the defective awnings from Dometic Corporation.

Sincerely,

Gary Mackelprang

V.P. Operations

Bravo Trailers

A handwritten signature in black ink, appearing to read "Gary Mackelprang", with a long horizontal flourish extending to the right.
