

Cargo Craft, Inc.Part 573 Report

Date: August 28, 2013

This report serves as notification by Cargo Craft, Inc. to the National Highway Traffic Safety Administration ("NHTSA") that a motor vehicle safety-related issue exists in certain travel trailer locks supplied by Fastec Industrial Corp., a division of WESCO Distribution, Inc., for installation in the doors of Recreational Vehicles ("RVs"). Additional information concerning the recalled locks can be found in Fastec's Part 573 Report that was separately filed on July 11, 2013 with an assigned NHTSA Recall #13E039.

Fax: 912-359-3427

Web Site: www.cargocraftinc.com

Contact Person: Johnny Ellis

Title: Purchasing Manager

Email address: cargocraftga@yahoo.com

Telephone: 912-359-2343

Fax: 912-359-3427

Importer/Distributor: Fastec Industrial Corp.
2219 Eddie Williams Rd
Johnson City, TN 37601**Manufacturer:** Zhongshan Huafeng Locks Co., Ltd.
South of Yongning Industrial Avenue
Xiaolan Town, Zhongshan, Guangdong
People's Republic of China

II. Identification of the Recall Population and Its Size

Type of Equipment:

The product consists of certain travel trailer locks with a keyed paddle handle and deadbolt (the “locks”) installed in the doors of cargo trailers. Only FIC locks that have an integrated deadbolt are affected by this recall. The cargo trailers potentially affected by the recall are as follows:

Brand:	Cargo Craft
Model Nos:	All
Model years:	January 2006 – April 2013.
Body Style/Type:	Enclosed

Total Product Sold:

Cargo Craft, Inc. & Cargo Craft of Texas, Inc. sold a total of 36,272 cargo trailers between January 1, 2006 and April 25, 2013. This total includes trailers with no deadbolt locks and locks with any key code, not just the subset of 20 key codes that may be affected by the recall.

Current Inventory Estimates:

Cargo Craft, Inc. has reviewed its current inventory of cargo trailers and has no cargo trailers in its inventory with any potentially affected locks.

Percentage of Recall Population Estimated to be Affected:

Cargo Craft, Inc. believes that some unknown subset of cargo trailers with an FIC deadbolt lock sold between January 2006 and April 2013 may potentially be affected.

III. Description of Issue and Type of Hazard

In or about June/July 2013, Fastec notified Cargo Craft, Inc. that Fastec intended to initiate a recall of the potentially affected locks due to a potential jamming issue with the deadbolt cylinder. If a lock is affected, the key may be able to be removed from the locked door when the key in the deadbolt cylinder is in the horizontal 9 o'clock position, potentially jamming the deadbolt and potentially causing the red lever on the interior side of the lock to become

inoperable. In that event, a person inside the cargo trailer may not be able to unlock and open the main cargo door.

IV. The Remedy Program and Its Schedule

Upon approval of the proposed recall and the recall announcement, **Cargo Craft, Inc. & Cargo Craft of Texas, Inc.** will work with Fastec to notify consumers of the recall. **Cargo Craft, Inc.** estimates that it will issue consumer notifications in the fourth quarter of 2013. **Cargo Craft, Inc.** will coordinate the recall efforts with Fastec and will refer consumers to Fastec for free replacement of the cylinders in any affected locksets as described more fully in Fastec's Part 573 Report.
