Jennifer Timian, Chief, Recall Management Division
Office of Defects Investigation
National Highway Traffic Safety Administration
U.S. Department of Transportation, Room 5326
400 Seventh Street, SW
Washington DC 20590

Dear Ms. Timian:

The following information is submitted in accordance with the National Highway Traffic Safety Administration's reporting regulations, 49 U.S.C. 573.6, Defect and Non-Compliance Information Report

Part 573 Report

This report serves as notification by Hart Trailer LLC to the National Highway Traffic Safety Administration ("NHTSA") that a motor vehicle safety-related issue exists in certain travel trailer locks supplied by Fastec Industrial Corp., a division of WESCO Distribution, Inc., for installation in the doors of Recreational Vehicles ("RVs"). Additional information concerning the recalled locks can be found in Fastec's Part 573 Report that was separately filed on July 11, 2013 with an assigned NHTSA Recall #13E039.

I. Manufacturer, Designated Agent, and Other Chain of Distribution Information

Filing Firm Name: Hart Trailer LLC
Address 1: PO Drawer C
City: Chickasha
State: Oklahoma
Postal Code: 73023-0757
Email address:
Telephone: 405-224-3634
Fax: 405-224-3637
Web Site: www.harttrailer.com

Contact Person: Sherri K Lewis
Title: Compliance

Telephone: 405-224-3634
Fax: 405-224-3637

Importer/Distributor: Fastec Industrial Corp.
2219 Eddie Williams Rd
Johnson City, TN 37601

Manufacturer: Zhongshan Huafeng Locks Co., Ltd.
South of Yongning Industrial Avenue
Xiaolan Town, Zhongshan, Guangdong
People's Republic of China

II. Identification of the Recall Population and Its Size

Type of Equipment:

The product consists of certain travel trailer locks with a keyed paddle handle and deadbolt (the "locks") installed in the doors of RVs. Only FIC locks that have an integrated deadbolt are affected by this recall. The RVs potentially affected by the recall are as follows:

Brand: HART
Model Nos: Medallion, Ultimate, Cargo
Model years: January 2006 – April 2013.
Body Style/Type: Gooseneck and Bumper Hitch Horse Trailers

Total Product Sold:

Hart Trailer LLC sold a total of 493 horse trailers with an FIC deadbolt lock between January 1, 2006 and April 25, 2013. This total includes locks with any key code, not just the subset of 20 key codes that may be affected by the recall.

Current Inventory Estimates:

Hart Trailer LLC has no horse trailers in its inventory with any potentially affected locks.

Percentage of Recall Population Estimated to be Affected:

Hart Trailer LLC believes that 493 horse trailers with an FIC deadbolt lock sold between January 2006 and April 2013 may potentially be affected.

III. Description of Issue and Type of Hazard

In or about June/July 2013, Fastec notified Hart Trailer LLC that Fastec intended to initiate a recall of the potentially affected locks due to a potential jamming issue with the deadbolt cylinder. If a lock is affected, the key may be able to be removed from the locked door when the key in the deadbolt cylinder is in the horizontal 9 o'clock position, potentially jamming the deadbolt and potentially causing the red lever on the interior side of the lock to become inoperable. In that event, a person inside the travel trailer may not be able to unlock and open the main RV door, but he or she could still exit the trailer from the emergency exit.

IV. The Remedy Program and Its Schedule

Upon approval of the proposed recall and the recall announcement, Hart Trailer LLC will work with Fastec to notify consumers of the recall. Hart Trailer LLC estimates that Fastec Industrial Corp. will issue consumer notifications in the fourth quarter of 2013. Hart Trailer LLC will coordinate the recall efforts with Fastec and will refer consumers to Fastec for free replacement of the cylinders in any affected locksets as described more fully in Fastec's Part 573 Report.

Sincerely,

Tracy Hart-Graham
Manager
