Date: October 22, 2013  
Motor Vehicle Recall Notification - Recall Campaign No. 13V-438

Dear Valued Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

### **REASON FOR THIS RECALL**

*Newmar Corporation has decided that a defect which relates to motor vehicle safety exists in specific motor homes.*

Following notification from chassis manufacturer Spartan Motors, Newmar has determined that a potential hazard exists in certain motor homes. The affected motorhomes were equipped with an air pressure gauge, which have been determined by Spartan Motors to be potentially defective.

**These motor homes require immediate service. Continued use poses a potential safety hazard.**

### **The Safety Risk**

On certain vehicles equipped with an Ametek 4-in-1 gauge, the air brake system pressure gauge may display an inaccurate pressure reading. This could cause the service brake air pressure to be lower than anticipated, causing a reduction in braking force and an unexpected application of emergency spring brakes, which could increase the risk of a crash causing injury and/or damage to property.

### **WHAT WE WILL DO**

Spartan Motors will provide owners of all affected motor homes a remedy for the potential defect at no charge for parts or labor. This remedy consists of replacing the defective 4-in-1 gauge with a new 4-in-1 gauge.

### **WHAT YOU NEED TO DO**
